## Tyvek® Coverall

Tyvek® spunbonded olefin is a unique DuPont material used by Lakeland for years in its manufacture of protective garments worn in all kinds of industry. Tyvek® offers high strength and provides an excellent barrier to many dry particulates, including asbestos, lead dust and radioactive dusts. Tests show that Tyvek® maintains its level of barrier protection after being subjected to abrasion and flexing. Tyvek® garments retain their shape and will not stretch out after kneeling and bending. No other material on the market today has the superior protective properties, comfort and endurance of Tyvek®. Case pack 25.
