Armstrong Tools

Armstrong Pinch Bars

Alloy steel brings cutting edges and tips for extreme hardness without creating brittleness. Striking ends are drawn back to a lesser hardness. This careful heat treating of highest grade alloy steel ensures longer tool life. Handles painted black with easy to read white lettering.

EDP #	Item Code	Description	Price
1317-39707	ARM 70-501	Aligning Bar Pinch 1/2 x 14	\$24.15

Ridgid Tool

Wrenches

Ridgid Straight Pipe Wrench

The Original Heavy-Duty Pipe Wrench with types and sizes to fit every application. Sturdy cast-iron housing and I-beam handle for comfortable grip and strength without excess weight. Full-floating forged hook jaw with spring suspension for instant grip, instant release. Replaceable jaws with tough, heat treated, high-alloy steel jaw teeth. Rugged, easy-spin, non-stick adjustment nut that automatically cleans grime from hook jaw shank. Uniquely braced, extra-strong mount for heel jaw. Sturdy, cast-iron housing and I-beam handle with full floating forged hook jaw, nonstick adjustment nut and replaceable hook and heel jaws.

Wilton Tools

Hammers

Wilton Unbreakable Handle Sledge Hammers

Never Replace A Sledge Handle Again!

The Mission

Wilton Tool Group sought to develop a handle that would be sufficiently resilient to resist an overstrike, the destructive mass of a heavy object such as the wheel of a heavy vehicle, or the impact of a heavy rock, without breaking or deflecting permanently.

The Answer

Tempered sping steel bars extend the length of the handle. The bars are riveted through a steel top plate which fits into a recess formed in the hammer head.

Abrasive resistant rubber is molded around the entire handle. The heads are vulcanized to the handle during this operation. By using this method the rubber absorbs the impact forces generated during use. This reduces the shock waves being transmitted through the handle and also reduces fatigue at the point where the handle joins the head.

The Conclusion

Wilton Unbreakable Handle Sledges have vastly superior resistance to breakage and are the BEST VALUE.

Lifetime Guarantee

The Wilton Unbreakable Handle Sledgehammers have a "Lifetime" Guarantee for normal use. The guarantee covers against defects in materials and workmanship. The hammers will be replaced should defects appear in normal use.

Sanders

MSI-PRO Mini-Belt Sanders

MSI-PRO® Mini-Belt Sanders: Have an all-surface capability, with versatility unmatched by competitors.

- Can easily work steel, cast iron, aluminum, plastic, plywood, hardwoods, stone, and other materials.
- Hot spots are eliminated due to the extra belt length.
- This lightweight, highly efficient tool greatly reduces arm fatigue with only the slightest contact.
- Efficiently remove materials.
- Small, lightweight, industrial pneumatic mini-belt sanders that help sand all jobs and all materials with amazing speed and ease...level surfaces, contours, even inside corners.
- Rear exhaust directs air away from work surface.
- Equipped with Silencer (noise level 80 dB).
- Standard accessories: Two sanding belts for each model and hex key wrench.
- The swing-position grip is 360° adjustable for up, down, and all-around positioning for operator comfort. 16,000 RPM. 0.37 HP. 85 PSI. Weight = 1.7 lbs.

Contractor Supplies

Drain Spade-D Handle, Poly Handle

Nupla offers a wide range of Ergo Power® Nuplaglas® fiberglass handled shovels and spades. The tools are non-conductive with specially designed ergonomic handles to fit the user's hands. They feature a combination of a sturdy outer sleeve of engineered polymer injection molded over a core of super strong pultruded fiberglass. The Nuplaglas core is manufactured using a patented process of pultruding millions of fiberglass strands combined with resin to create handles of tremendous strength and durability.

The ergonomically designed long and short tool handles have a smaller radius at the bottom to comfortably rest in the palm and tapered flat sides for control. This innovative design provides lower effort and strain and increases tool efficiency by eliminating unnecessary movement, such as the twisting motion required by an unbalanced shovel load. With improved hand control, the Ergo Power handle design reduces forearm fatigue and blistering of the hands.

Ergo Power shovels are available in a wide selection of popular blade styles including round point and square point - in variations of closed back, heavy gauge and solid shank patterns - drain spade, garden spade, roofers ripping, serrated roofers ripping, irrigation and sewer spade.

EDP #	Item Code	Description	Blade Size.	Net Price

Concrete Repair

Loctite Fixmaster Magna-Crete is rapid setting in any environment with a working time of 5 to 20 minutes, depending on air temp reducing down time, labor costs and repair time. Magna-Crete bonds to old and new concrete as well as most construction materials, including wood and steel. It's compressive strength up to 3,000 psi in two hours, 13,000 psi in 28 day cure and can be applied in temperatures as low as -15°F.

Magna-Crete is a two-part component utilizing magnesium phosphate-based kit and is easy to mix and apply. It can be applied over rebar, screen mesh etc and is resistant to bacteria, ultraviolet light, chemicals including caustics, salt solutions, airport and auto fluids.

Common applications include:

- Repair and restore floor, ramps, loading docks, concrete pillars
- Fill potholes
- Repair parking structure joint
- Repair highway, roadways, bridge decks and runways
- Anchoring machinery
- Grouting bedplates and soleplates
- Anchoring bolts and handrails

Tarp Anchors

Tarp Anchor and Tie-Down Strap

Totally weather resistant - made of special elastomer that prevents cracking, chipping, or peeling. Road resistant - guards against salt, sun, chemicals, ozone and diesel fumes. All weather elasticity - stretches easily in winter's cold or summer's heat.
